

HMCC BUNKER/TEE RENOVATION PROJECT SUMMARY

High Meadows golf course will be going through a bunker and tee renovation project in early spring, 2019. Bill Bergin, golf course architect, has worked closely with our Advisory Committee to develop a comprehensive plan. The project will include renovation to all bunkers, adding drainage, and replacement with G-Angle sand. All tee boxes will be laser leveled, re-grassed with bent grass, a number of new tees added and enlarged. Several of the holes will also have renovations to green approaches tying into the changes in bunkers and improved drainage. Below is a hole-by-hole summary of changes for the renovation project. We expect the project to take approximately 60 days for completion, weather dependent.

HOLE #1

- ◆ Blue tee moves forward, new Green tee added on Clubhouse side of pond
- ◆ Greenside bunker moves slightly to the right side of green
- ◆ Left side approach area at green renovated and widens

HOLE #2

- ◆ White tee enlarges and Gold tee moves back, New Orange tee added

HOLE #3

- ◆ New Blue tee added, White/Gold tee renovated and lowered. New Red and Orange tees added- moves forward to play as par 4 yardage
- ◆ Left greenside bunker moves towards back of left side of green
- ◆ Approach on left side renovated to allow larger opening to green

HOLE #4

- ◆ Orange tee added
- ◆ Fairway bunker added on right side. Approach bunker added approximately 40 yards from green on left side. Right greenside bunker moves around right side of green opening approach

HOLE #5

- ◆ White, Gold, Green and Red tees enlarged. Orange tee added
- ◆ Approach area renovated to improve drainage

HOLE #6

- ◆ New Gold and Orange tees added
- ◆ Left fairway bunker size reduces and shifted more parallel to fairway

HOLE #7

- ◆ Gold and Green tees expanded. New Red and Orange tees added-hole will play as par 5
- ◆ Bunker added on right side of fairway approximately 115 yards from green. Left-front greenside bunker added

HOLE #8
